„From a blacksmiths to an international engineering company ... A powerful history over six generations“

The Kraft Group

- G. Kraft Engineering GmbH
 - Kraham Engineering and Metal work GmbH
 - Gruse Engineering GmbH & Co. KG
-
- Dynamically and quickly growing
 - Growth bucking the trend
 - KRAFT is more. Providing more. Giving more.
Achieving more. More power.
At all levels.

„We develop and construct simple „beginners“ facilities up to fully automatised hightech construction lines, worldwide distribution and after sales service inter alia with KRAFT-service-hotline.“

What was progress and new yesterday, today often belongs to everyday life

- Flexibility, competence, high quality and short decision making chains in a company, form the basis for innovation and a long lasting economic success.

Therefore we will also continue to count on custom solutions for all demands:

Individual engineering for all areas and new markets.

**„Innovation is our driving force,
success is our standard.“**

Even more ideas for rational product engineering

- The planning
- The construction
- The programming
- The commissioning and the service

„One-stop service, to us it is not just an empty phrase, but is lived with the customers every day. “

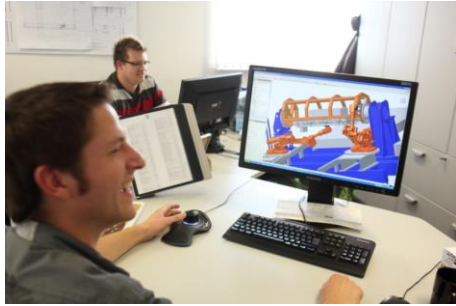

**One-stop service,
for automation systems and facilities for
completely different branches and markets.**

Impressions

- Production location in Germany
- For us education is a major support leading into a successful future
