THE DACH+HOLZ International

SETS STANDARDS!

After both of the extremely successful events in Cologne 2014 and in Stuttgart 2016, DACH+HOLZ International 2018 in Cologne promises to be the top class meeting of national and international roofing and wood construction industries again. The trade fair is clearly structured and tailored to all the trades related to roof and wall, wooden structures and developments. It offers a comprehensive overview of significant developments and trends.

WHAT GROUPS OF VISITORS ARE WAITING FOR YOUR RANGE OF EXHIBITS?

- Roofers, Carpenters, Plumbers
- Architects and planners
- Housing associations, property developers
- Façade sector
- Property management companies, private building-owners
- Specialised trade, Scaffolders
- Solar companies, Installers of shutters and blinds, Horticulture and landscape companies
- Investors, Authorities

AND WHAT DO YOU STAND TO GAIN AS AN EXHIBITOR?

- The 2-year frequency corresponds to the innovation cycle of the sector.
- The target group-specific range provides a clear delimitation compared to universal construction trade fairs.
- The relevant associations involved in the trade fair actively promote for the trade fair visit among their affiliated members.

The attractive conference and congress program targets key visitor groups and multipliers.

Highlights are, among others:

1. Specialist congress for architects and planners
 2. DACH+HOLZ-Forum
 3. Live workshops
 - Special exhibition "plumber crafts"
 - Special exhibition "roof greening"
 - Public trainings of the national teams
- The worldwide foreign representative network of the organisers provides for greater internationalism among exhibitors and visitors
 - The Cologne Exhibition Center is located in an interesting business region for DACH+HOLZ International.
