High speed wood machining center

Model: MGK07 Manufacturer: Nanxing Original: Guangdong, China Date: December, 2014

1. Technical data

1' 1' 4	X-axis: 3500 mm	Y-axis: 1700 mm
working distance	Z-axis: 270 mm	
working table	3050×1600 mm	
max. traveling speed	X-axis: 50 m/min	Y-axis: 50 m/min
	Z-axis: 20 m/min	
	number of main spindle: 1	rotating speed: 24000 rpm
main spindle	power: 9 kW	tool holder: HSK-F63
numbe	number of tools: 8	coupler size: ER32
power: 1.3 kW	power: 1.3 kW	vertical drills: 7
drilling block	horizontal drills (X) : 1 + 1	horizontal drills (Y): 1 + 1
vacuum pump power: 5.5 kW suction pressure: 0.8 kg/cm ²		suction flow rate: 250 m 3h
dust extraction	dust pipe: Φ200	
air supply	air pressure: 6 kg/cm ²	
power supply	frequency: 50 Hz	voltage: 380 V; 3 phases
machine size	L×W×H: 4220×3450×2135 mm	net weight: 6000 kg

电话(Tel):+86-400 888 2033 +86-769-85827789 传真(Fax):+86-769-85592399

2. Features

- (1) With industrial computer installed within the control center and completed with Windows system, user-friendly CAM software and graphs aided programming, the machine is easy to operate that improves work efficiency.
- (2) Machine body is constructed with heavy steel for high accuracy and durability. Most of electric and pneumatic components are international famous brands sourced from our supplier partners.
- (3) The main spindle is paired with a 9.0 kW motor with rotating speed up to 24000 rpm.
- (4) Travelling speed of X-axis reaches to 70 m/min that meets the requirement for high production.
- (5) Drilling block with 7 vertical and 4 horizontal drills which can be controlled independently by programs to improve efficiency.
- (6) Solid built ATC 8 station for changing of 8 different tools automatically that makes it possible to finish a set of complex processing of work piece effectively.
- (7) Central lubrication system is installed for providing continuous smoothness and workability of the machine.

3. Body frame

The frame is made of heavy steel that provides a long life and a strong capacity of load.

4. Transmission mode

- —X-axis, rack and pinion;
- —Y-axis, rack and pinion;
- Z-axis, ball screw.

5. Ball screw

- Less friction, high efficiency;
- High precision and rigidity, zero clearance;
- With a wide range of feeding speed.

6. Servo motors

The accurate movement of each axis is ensured by the high quality servo motors.

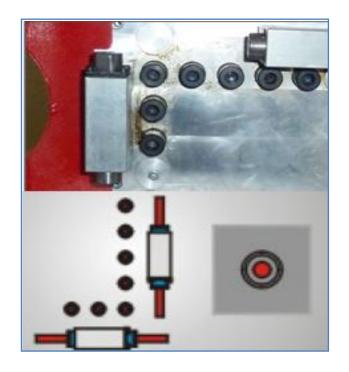

7. Main spindle

- —— Italy HSD air cooling spindle;
- High precision and stability, long life;
- Power: 9 kW;
- Tool holder: HSK-63;
- Rotating speed: 24000 rpm.

8. Drilling block

- 7 vertical drills, 4 horizontal drills (1 drill in each direction);
- ——Rotation direction: clockwise, counter clockwise;
- Diameter of drill shank: 10 mm;
- Maximum borehole diameter: 35 mm;
- Center distance of drills: 32 mm;
- Each drill can be controlled separately.

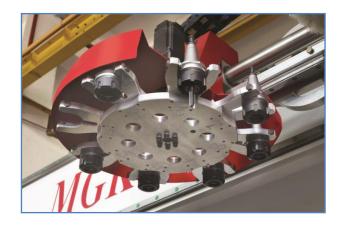

电话(Tel):+86-400 888 2033 +86-769-85827789

9. Automatic tool changer

- Tool holder: HSK-F63;
- Number of tools: 8;
- Time of tool changing: 12-18 seconds.

10. Working table

The crisscrossed grooves provide excellent vacuum sorption effect. Workpieces of different shapes and sizes can be easily fixed on the table.

11. Vacuum Pump

Equipped with one vacuum pump of 7.5 kW, 240 m 3h.

电话(Tel):+86-400 888 2033 +86-769-85827789

12. Electric equipment

- Independent electric cabinet;
- -Windows operating system;
- -17" display;
- Operation panel with an emergency button.

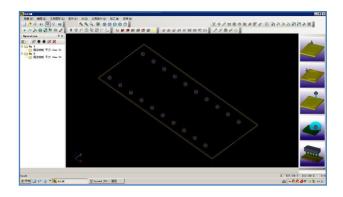

13. Soft ware

Italy OSAI control system provides stable performance, powerful functions and ease of use. (English and Chinese are available.)

The NanxingCAM software generates and output NC codes which can be read by machine to control the process, more accurate and more efficient.

14. Dust extraction

- Designed professionally; 2 individual hoses right at the points of dust;

- Hose diameter: Φ200;

— Number of outlet: 1;

— Required suction speed: 28 m/s.

15. Lubrication

The machine is equipped with lubrication system that reduces the need of maintenance by operators.

16. Tool probe

The device effectively improves accuracy and efficiency of tool setting.

17. Dust cover

The ball screw is paired with a cover that provides excellent protection from dust.

18. Air conditioner for electrical cabinet

* Due to the continuous improvements of our products, some changes for better machine may apply!
