

NOVORYT®

SWISS MADE

English

We have sets for every purpose and demand. We offer professional sets but also small starter kits. The choice is yours!

To refill your set or extend your range of colours our PET-boxes with 20 pieces of soft wax or melting putties are very useful.

Colour or structure corrections are very simple with our correction pens! We offer brush system, fibre system or valve system.

New

The unique retouching-material especially **for white and coloured plastic-windows**. Simply using perfect results
