

Over 1000 rack clad buildings that pay for themselves!

This is our daily business! —
OHRA rack clad buildings — custom built to your requirements!

Self supporting rack warehouses with roof and wall cladding

- A sound cost-benefit analysis is essential when deciding to build a new warehouse.
- OHRA Rack clad buildings perfectly unite building architecture with racking functionality.
- OHRA rack clad buildings render conventional warehouse and separate racking combinations obsolete
- Dependant on the goods stored our standardised pallet racks or cantilever racks serve as the main supporting components.
- Together with you, our sales engineers discuss and plan the best solution for your needs
- Numerous standard options and variants enable a 100% customisation to your needs
- We deliver the full package: Planning, engineering, static calculations for steelworks and building slab, manufacture, delivery and assembly.

From start to finish

We'll find the right solution for all your products!

Together with you we help you plan your warehouse and find the most economical solution, making sure that you can keep financial outlay under control.

Eco friendly and safe

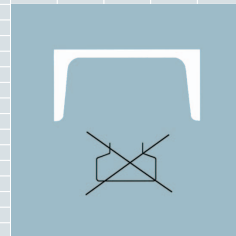

Translucent glazing elements make the most of natural sunlight. Fanlight frames provide light and aid smoke extraction. Integrated water evacuation accessories direct rainfall from the building into your drainage system.

Get the best for your product. Full core hot rolled steel - not thin walled sheet!

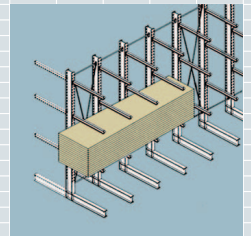

Designed to work, built to last!

OHRA racking lasts longer! Hot-rolled steel profiles assure durability and safety in your storage premises.

Choose quality "Made by OHRA"

Hot-rolled steel profiles instead of thin wall sheet

Well-engineered and individually configured!
