PASSION, PERSISTENCE, INNOVATION

The driving forces that have turned
Panotec into an uncontested
leader in Packaging on Demand

MECCANICHE

Since 1986 Panotec is a market leader in Packaging on Demand. A pioneer designing and building machines to produce custom cardboard boxes.

Products and machines made by Panotec have become a reference model for the packaging industry thus becoming the prime choice of prestigious global brands.

Vocation, aptitude and spirit of innovation merge into a way of doing business that is always connected to the future and constantly driven by passion, quality and know-how.

ITALIANE

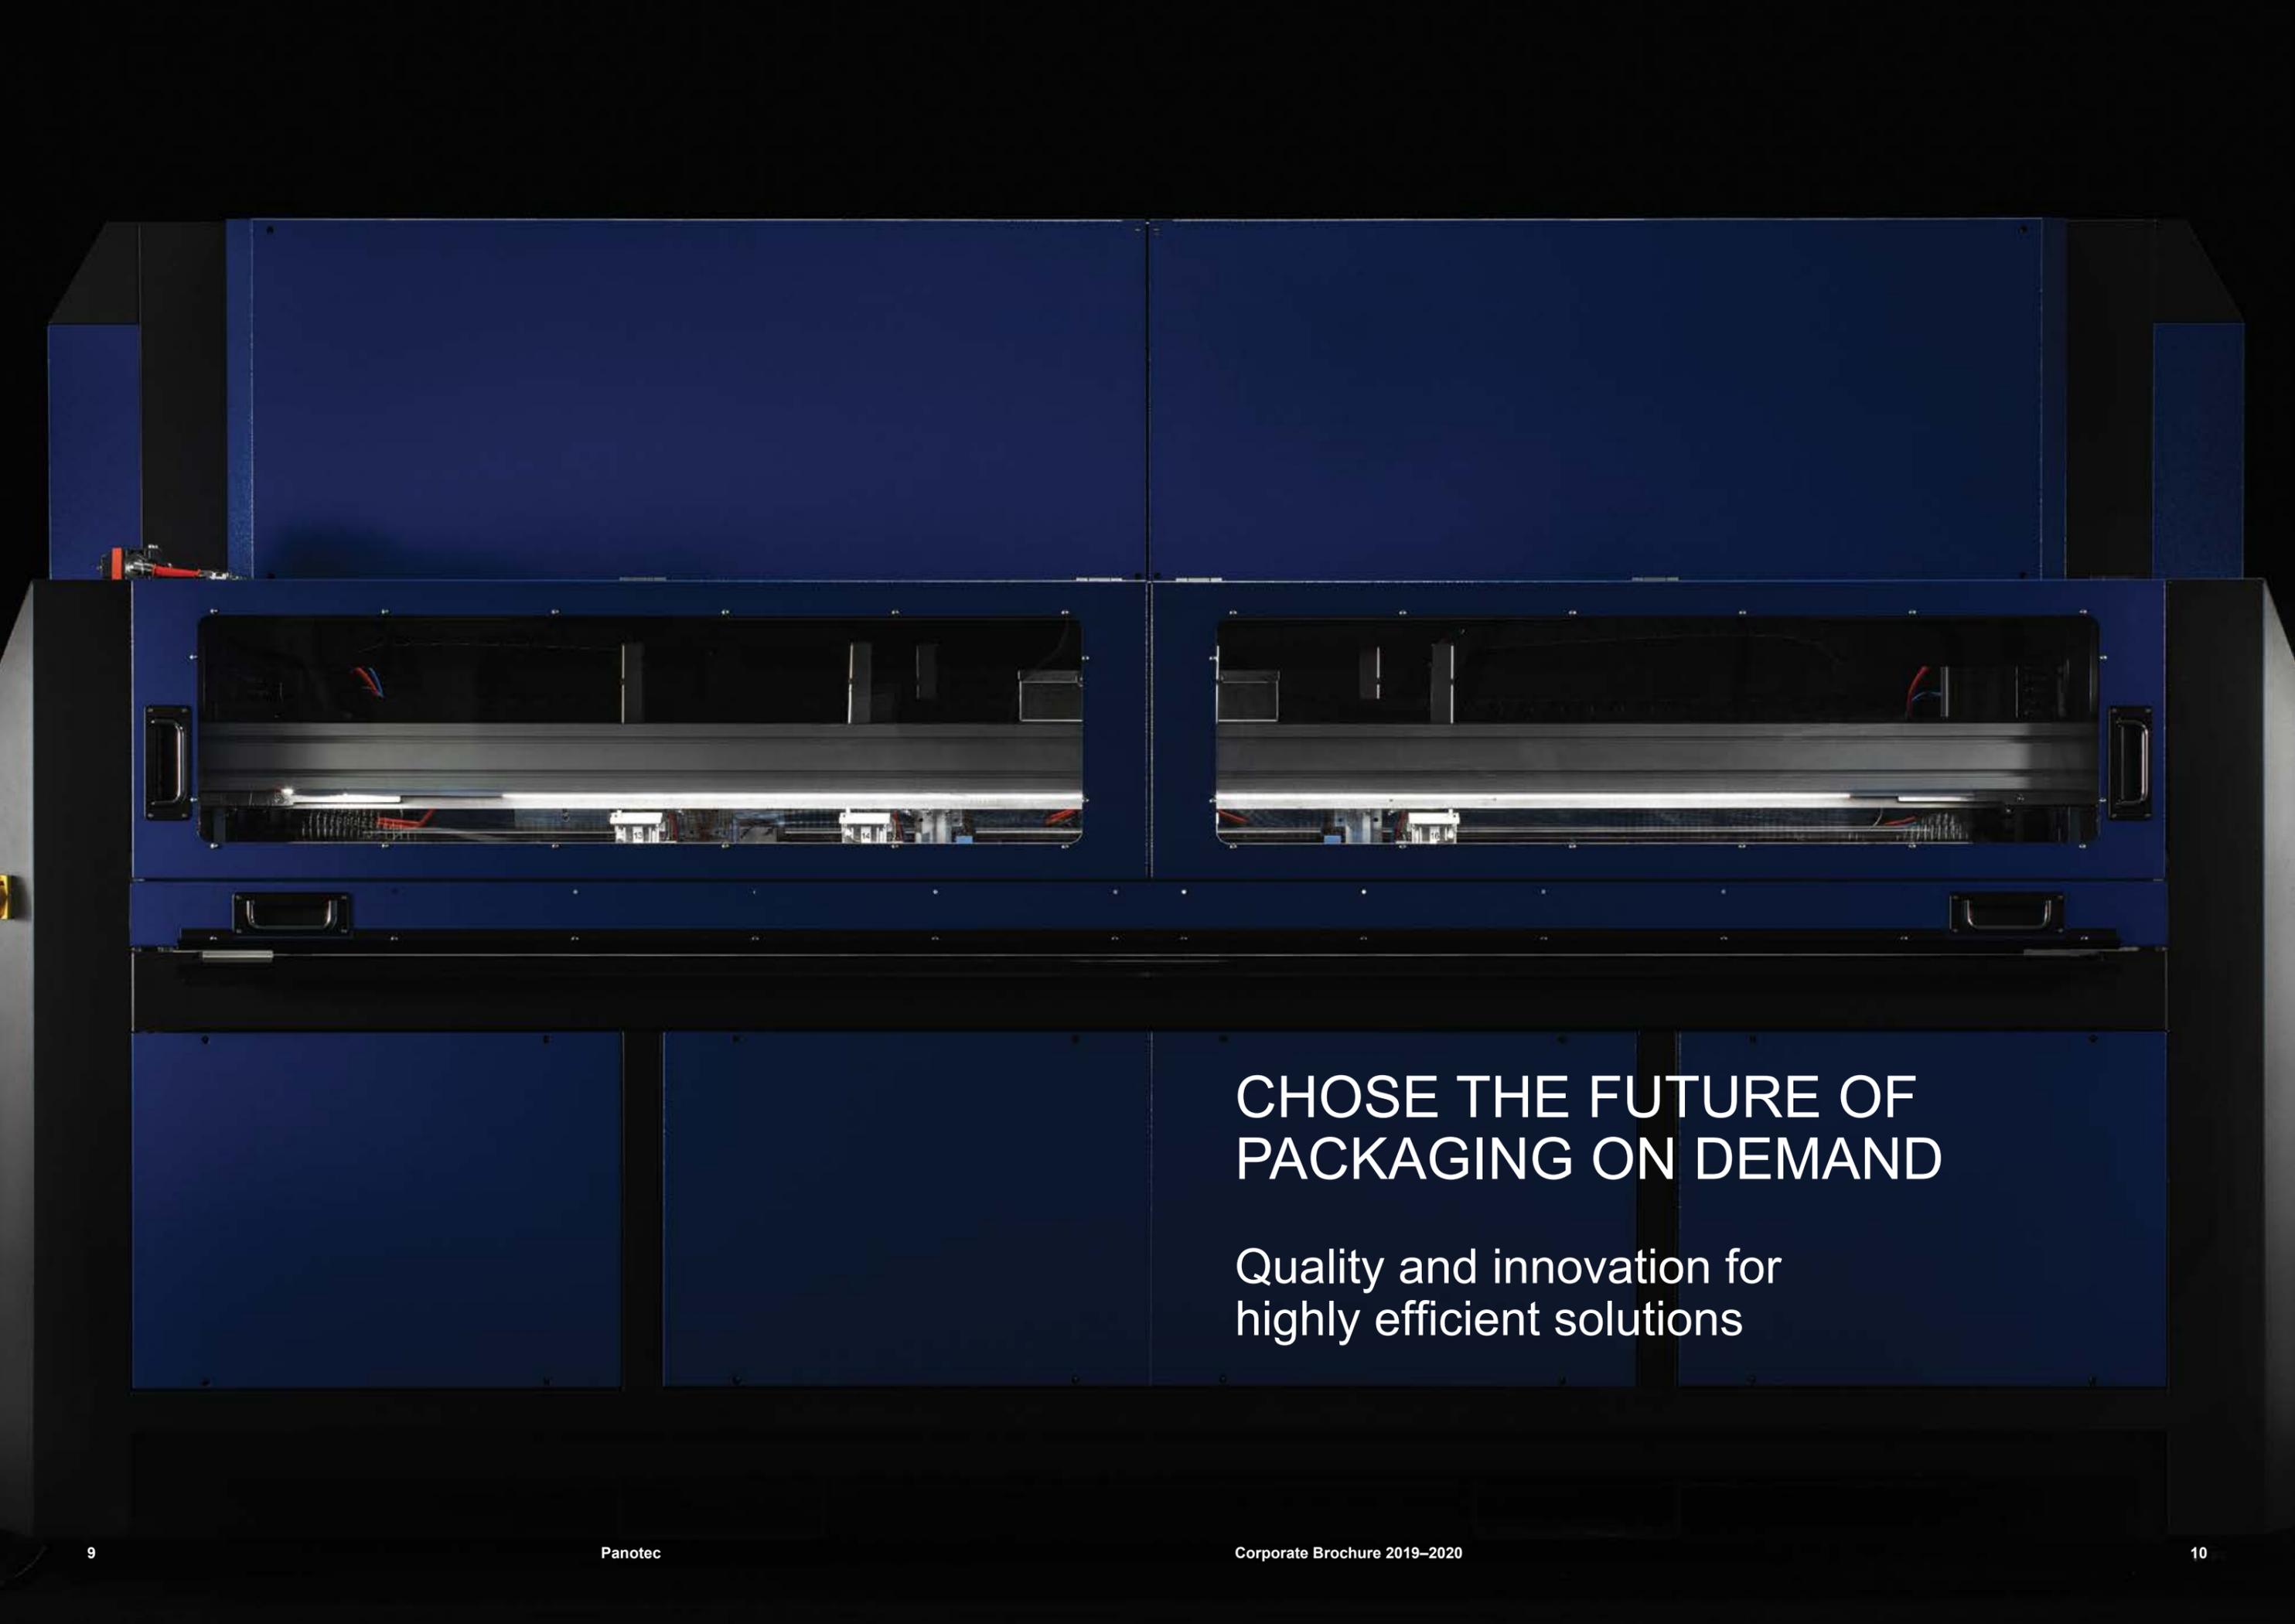

The company history of Panotec is one of excellence, not least because Panotec has given prove of its style and quality on a worldwide scale always honouring the great legacy of engineering Made in Italy. Every gesture and every detail is deeply linked to a know-how culture representing the Italian legacy of a company that produces high quality products. Visions of the future, cutting edge technology, research and a unique design are distinctive features of Panotec and the added value of this company.

PRIDE AND PROFICIENCY

The desire to be always one step ahead of the market drives us on a day by day basis in finding new ways to offer innovative solutions to our customers

A large, dark blue industrial machine with two open compartments. Each compartment reveals a complex internal mechanism with rollers, belts, and various components. The machine is set against a dark background.

CHOOSE THE FUTURE OF PACKAGING ON DEMAND

Quality and innovation for
highly efficient solutions

Advantages of the Panotec System

THE SYSTEM BY PANOTEC

With a Panotec machine you can produce a custom box for your product. You can protect and give value to all items you pack and ship; no more bulky boxes, damaged products, materials that harm the environment and, above all, no more money wasted on stock for box storage and outdated or unsuitable packaging. Panotec gives a chance to produce «sustainable» and 100% environment friendly packaging.

REDUCE COSTS

No more minimum orders of boxes.

Purchase only the fanfold you need to produce your boxes.

Abolish environmentally harmful void-filling materials to protect your products inside the box.

NO MORE TIED-UP INVESTMENTS ON BOX STORAGE

Abolish box storage and dissolve the capital tied-up in boxes.

SAVE TIME AND MONEY

Operators do not waste any more time to look for a suitable box.

Gain precious space from eliminating your box storage.

IMPROVE PRODUCT PROTECTION

A box made to measure for your products is a guarantee for efficient protection

With a Panotec machine it is also possible to produce custom void fillers in order to create highly efficient protections inside the box.

PANOTEC – THE MARKET LEADER

To have built the first machine for Packaging on Demand makes us extremely proud but we also consider this a major responsibility and this is why we are constantly striving for highly innovative and sustainable solutions.

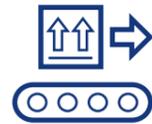

The result is a product range of highly efficient packaging machines and printing solutions designed and patented by Panotec in order to enhance the productivity and work flow for our customers.

COMPACK

High-level technology for
Packaging on Demand

NextPro is the best machine for Packaging on Demand, perfect for its extremely high performance and reliability. On the international market this machine has been available for over ten years and it has been chosen by the biggest global brands to face the challenges of the market.

PARTICULARLY SUITABLE FOR:

- big enterprises
- high productivity requirements
- production of more than 10 boxes per minute
- for production in high flexibility (batch size 1)

The world's best machine
for Packaging on Demand

EVO

Evo is a packaging machine of the latest generation, created by the departments of research and development, the electrical and software department with of 30 years of experience. EVO has a small footprint and it was designed for easy, low-cost maintenance and low noise levels.

EVO

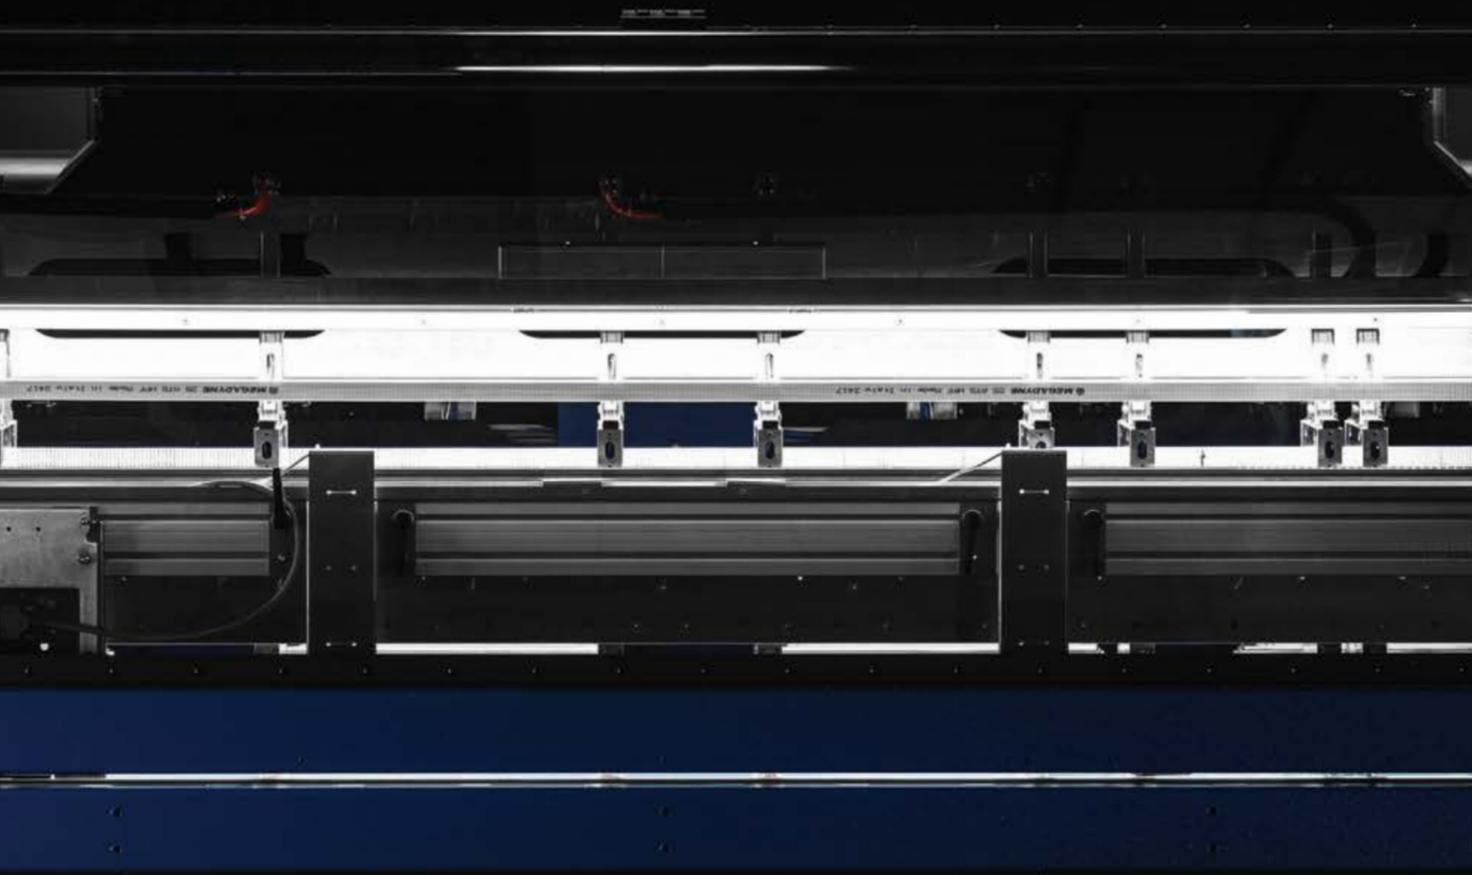

PARTICULARLY SUITABLE FOR:

- medium to big-sized enterprises
- medium to high productivity requirements
- more than 4 boxes per minute
- for production in small batches or flexibility (batch size 1)

The next generation of innovation

Midi is our solution for high volumes and limited space. Perfect for companies producing small to medium sized box formats in many different size

PARTICULARLY SUITABLE FOR:

- small to medium-sized companies
- medium productivity requirements
- more than 4 boxes per minute
- for production in small batches or flexibility (batch size 1)

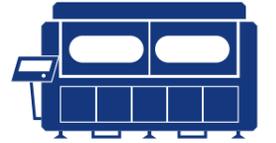

Small footprint and high performance

COMPACT

Compact combines technology and savings. A perfect tool for companies that need to produce in medium or small batches or a small number of boxes. The machine is easy to operate and features the reliability of Panotec Systems.

COMPACT

PARTICULARLY SUITABLE FOR:

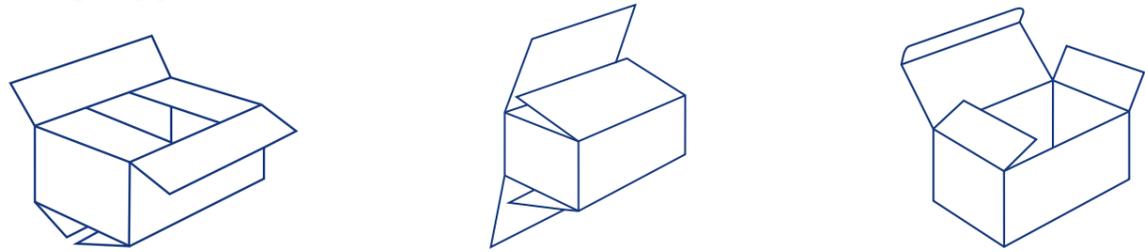

- small to medium-sized companies
- low to medium productivity levels
- more than 2 boxes per minute
- for production of small batches or in flexibility (batch size 1)

ENHANCE YOUR EFFICIENCY WITH OUR INTEGRATED SOLUTIONS

The machine is the centrepiece of Panotec's mechanic excellence and it has a wide range of accessories revolving around it in order to offer maximum efficiency for the Packaging on Demand solutions we offer. All solutions can be tailor made to raise efficiency and generate added value.

GLUING AND CLOSING

Simple, fast and flexible systems that can be perfectly integrated into the Packaging on Demand process by communicating with the Panotec packaging machines and providing immediate solutions for all format requirements.

MEASURING

Panotec achieves tailor-made solutions thanks to its customer-oriented approach which is then transformed into integrated measuring stations, lines and workstations able to detect the exact dimensions of the products thus triggering the right work cycle.

SOFTWARE

Exchanging information is crucial in an efficient production line and this is why the Software Systems by Panotec provide an added value: simple, functional tools to control and optimize the work flows. They are constantly evolving thanks to the feedback from our customers.

PACKAGING IDENTIFICATION SYSTEMS

The identity of a product is its admission ticket to the market. All solutions by Panotec are extremely efficient in industrial environments and meet the specific requirements of production from box labelling to printing.

E-gluer - Gluing

Boxlink Pro - Software

Print on Demand - Packaging identification system

3 evo Scan - Measuring
