

AUTOMATION & ROBOTIC
SOLUTIONS

- Worldwide leader in the production of woodworking 5 axis cnc machining centers
- 100% Made in Italy
- 100% owned by the Bacci family for 4 generations
- Market leader worldwide
- More than 50 international patents
- 2 direct sales & service subsidiaries (America and China)
- Dedicated service team
- Total reinvestment of profits
- Over 3,000 CNC machining centres sold since 1996

May 8th, 2017: Paolino Bacci announces BACCI AUTOMATION with the acquisition of FA ROBOT srl, a company established in 2001 specialized in turn-key solutions for the automation of production processes in the woodworking industry and beyond.

- Founded in 2001 and located in Pradamano – North East Italy the hearth of the european woodworking district
- Industries and applications: woodworking, metalworking, product handling, milling islands, assembly, palletizing and packaging
- Internal vision systems and supervisory software
- More than 400 systems delivered
- Know-how and experience since almost 20 years
- Official FANUC integrator
- Ability to integrate anthropomorphic robots of any brand (Kuka, Abb, Yaskawa)

BACCI AUTOMATION is worldwide known for its innovation and experience in the automation and robotics.

INDUSTRIES

PALLETIZING

BENDED WOOD

METAL

PLASTIC

FOOD&BEVERAGE

PANEL

- Tending system for kitchen cabinet doors cnc routers
- 3 axis cnc machines tending system
- Automatic panels labeling
- Loading/unloading of sanding lines
- Painting lines unloading
- Drilling machines tending system
- 5 elements folding drawers assembling lines
- Tending system for Single side edge bender with panel rotation and return conveyor
- Cross cutting saw with robot feeding
- Panel processing with band saw and robot
- Loading/unloading of finishing line
- 90° 5 elements kitchen cabinet doors assembling lines
- Panel gluing lines

SOLID WOOD

- Brushing robot
- 5 axis milling with robot
- Copying lathes tending system
- Tending system for 5-axis cnc machines for chairs
- Cabinet doors squaring line unloading
- Doors assembling and hemming lines

DOORS&WINDOWS

- Drying tunnel with robotic loading/unloading
- Windows impregnating lines
- Tending system for windows painting lines
- Windows clips automatic inserting
- Windows silicone sealing
- Window glasses automatic storage with with automatic loading/unloading
- Glass inserting on window's frame

PALLETIZING

- Palletizing line for furniture kits up to 18 boxes/min productivity
- Assembled cabinet doors unloading
- Wood flour boxes palletizing
- Wood briquettes packaging

BENDED WOOD

- Presses tending system
- Bended wood embossing

METAL

- Hammering blades
- Tending system for gas tanks painting line
- Tending system for Metal working presses
- Forge tending system
- Aluminum sanding
- Gears assembling
- Reducers assembling
- Metalworking machine tending system

PLASTIC

- Reels unloading
- Water meter assembling lines
- Road lights silicone dispensing with robot
- Gluing paper-pallets feet
- Winding machine unloading

FOOD&BEVERAGE

- Pizza boxes palletizing

Palletizing line for kit-furniture boxes

Gluing cabinet-door front-frames

Tending system for clamping machine for 5 elements cabinet doors

Panels palletizing line

Lay Out

Painting line unloading

Paper pallet unloading line

Paper pallet assembling line

Metal working testing and inspection line

Service

BACCI AUTOMATION promotes close relationships with customers in order to better understand their needs and improve its after-sales service through a dedicated area: with a highly specialized team, it offers prompt tele-service diagnostic to detect system breakdowns or malfunctions and support the customer either on-line and/or on-site, within 24 hours after request.

Direct and seamless co-ordination between Service and Spare parts' request for a fast identification and delivery of material.

We work with the best

Leading manufactures are aware that in order to achieve the best quality, substantial investments shall be done on business and production processes.

BACCI AUTOMATION works with the best manufactures in the world confirming the quality and reliability standards of its solutions!
