

# PACKAGE SAWS

WITH ARCH GUIDE FRAME

W O O D

## MOBILCUT STATE LINE

The MOBILCUT STATE LINE is a positioning saw with a package frame to cut stationary packages. The saw positioning is manual, the guide bar moves along a double guide arch for high cut accuracy. The saw stands out due to easy operation, a sturdy design and excellent stability. With a maximum frame length of 7,6 m, it can also be installed where space requirement is limited.

### TECHNICAL DATA

Saw motor power 7,5 kW • manual feed for cut • to process packages up to 600 x 130 x 130 cm (L x W x H) • delivered with length indication • +/- 2 mm cut accuracy • double guide arch

## MOBILCUT HIGH LINE & TOP LINE

Additionally to the MOBILCUT STATE LINE version, the MOBILCUT HIGH LINE is equipped with an electric feed for cut and is even more efficient through the motor of 11 kW.

### TECHNICAL DATA

Saw motor power 11 kW • electric feed for cut • to process packages up to 600 x 130 x 130 cm • equipped with length indication • manual positioning • +/- 2 mm cut accuracy • double guide arch

The MOBILCUT TOP LINE offers automatic positioning via a length measuring system.

### + OPTIONS: PRESSURE PADS, PNEUMATIC PACKAGE LIFT

# CROSSCUT

The CROSSCUT complements the range of PRINZ crosscut saws with arch guide frame. In this model, the saw is fixed to the loading frame and a travelling carriage positions the stacks. Available with manual cut function and PLC control. Many options are available: kerf opening, strapping systems and much more.

## TECHNISCHE DATEN

Saw motor power 11 kW • electric feed for cut • for packages up to 600 x 130 x 130 cm (L x W x H) • +/- 2 mm cut accuracy • double guide arch
