Company brief

We are a professional manufacturer in the line of woodworking machinery for **16 years**.With **CE certification**,our products are popular and sell well in many countries and regions, like,Iran,Russia,Brazil, EN, the whole America , and so on. Time has tested the quality of our products and the good credit of our company. Now there are still many large orders send to us every day from far away.

Our company purpose:"credit first, customer supreme" to the quality and development.

Welcome to our company for visiting, learning ,teaching, negotiating, and cooperating.

professional , so excellent

Welcome to SOSN

Details make products perfect, We take care of you !

SX-1325A Auto loading and unloading cnc router with disk ATC spindle,

Video for reference: <https://youtu.be/SnM-fkktTbs>

Details make products perfect, We take care of you !

Technical information

Table size	2500*1300
Drive type	X/Y High precision rack gears Z imported Ball screw
Worktable structure	Double vacuum adsorption table
Main Spindle power	9.5kw
Main Spindle speed	24000r/min
Max traveling speed	45m/min
Max engraving speed	20m/min
positioning Accuracy	±0.05mm
Resolution	±0.001mm
air extraction volume	230m ³ /h
Tool Magazine	Hat type
Tool Number	8
vcuum pump power	water cooling 7.5KW

Product configuration

control system	Original Taiwan Syntec 6MB
servo system	PANASONNIC
spindle	9.5 KW Italy Hitec spindle with auto tool change
Rail	HIWIN30
Rack	Taiwan YYC
Transmission	X, Y Axis: Taiwan YYC Z-axis Taiwan ball screw
Boring/drilling group	Italy 5+4 Fam boring head
Reducer	Motoreduce
Electrical parts	Schnider

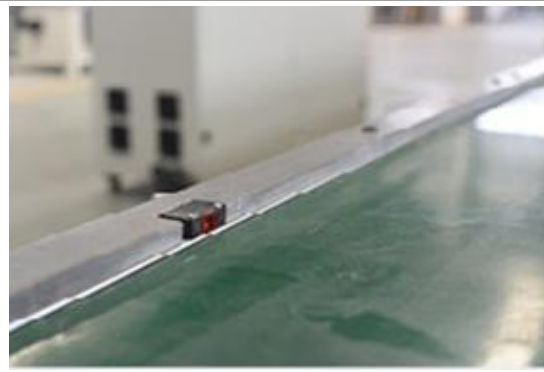

Details make products perfect, We take care of you !

Features

- 1, Syntec control system; fully automatic production from loading, vertical drilling, optimization of cutting, and unloading;
- 2, Heavy duty gantry frame for accurate movement; ; machine parts are all by FEA finite element analysis, and high-temperature tempering, body stability and not deformation
The table adopts double vacuum adsorption table, can be strong adsorption of materials of different sizes
3. Machines control interface design design humanization, easy to operate, the operator through simple training can work, without skilled workers, Machine move fast, high efficiency, to help you achieve productivity leap.

Detail parts

	<p>TAIWAN SYNTEC 6MB control system</p>
	<p>Vacuum table with good quality strong asorabtion ability</p>
	<p>Automatic uploading device</p>

- 1) We can arrange shipment for your if need.
- 2) We guarantee the machine body for one year, three months for easy-broken parts.
- 3) Package:Standard export wooden cast package
- 4) Delivery time:20 days after getting the deposit(depends the quantity)
