SPECIAL Plastic-CLEANER for Manual Cleaning

The special plastic cleaners developed by RIEPE® are the first choice for the manual cleaning of plastic surfaces. Due to the exclusive use of only high quality raw materials, the RIEPE® special plastic cleaners affirm their position as premium products in the market.

LP305/98 The **allrounder** removes effortlessly all glue residues

LP305/98 PLUS The **strongest** removes even PUR residues completely

LP208/56 The **mild one** for slight to middle residue contamination

The perfect addition is the **2 liter plunger can**, which ensures the safe and cost effective use of the various chemical products. It stands out through high quality workmanship and long-lived reliability and makes all manual cleaning easier.

We would also be very pleased to develop chemical products to suit your particular needs. Please just contact us.

- ✓ Effortlessly removes glue residues
- ✓ Strong cleaning power
- ✓ Quick drying
