

SEMPRE TODAY

Today, Sempre is not only the leader among suppliers of new and used machinery, dust removal, spark detection, and fire extinguishing systems in Poland, but also a company which is ever more clearly establishing its presence across Europe.

As a supplier of second-hand machinery, we have experience serving clients from many European countries, including Italy, Switzerland, Portugal, Finland and Germany.

Our offer includes a wide range of woodworking machinery from leading suppliers such as Homag, IMA, Biesse, and SCM. In addition to individual machines, we also offer complete production lines and assistance in production automation. We offer high-quality equipment produced by well-known European manufacturers, giving our clients the certainty that all equipment bears the appropriate EU certifications and is made from the highest quality materials.

Therefore, in choosing Sempre, you guarantee that your products will meet not only your own expectations, but most importantly, those of your customers.
