About Cogent

From greenfield to modernization projects, industrial operations across the globe leverage our technology expertise in wood based panel board and pellet plants to Define, Design, Build and Operate their industrial plants.

Cogent offers in-depth Industry Knowledge, Technical Expertise and Project Management Best Practices to successfully deliver technology projects.

A Team of Professionals Dedicated to Project Success

Cogent has a proven track record of executing successful projects and is recognized by its clients and industry peers as one of the leading technology experts in North America.

We listen to your needs and work closely with all stakeholders to ensure that our projects successfully meet your project goals and that you receive the desired value from your investment.

Build it Right the First Time

Industrial Operations and Facilities Leverage Our
Process and Industry Experience,
Technical Expertise
and Project Management Services
To Achieve and Sustain a Competitive Advantage.

Project Highlights

Cogent provided a complete portfolio of professional services on the following wood-based panel board and pellet plant projects:

Norbord
£110 Million Expansion
OSB - UK

Pinnacle Pellet
400,000 MTPA Plant
Pellet Mill - Canada

Georgia Biomass
750,000 MTPA Plant
Pellet Mill - USA

“ We found Cogent’s project and management team to be a group of highly skilled professionals who always put the project’s best interest as their top priority. I would highly recommended Cogent as a trusted partner for your projects. ”

- Senior Vice President, Norbord Europe

Our Services and Solutions

Cogent leverages best-in-class technologies, engineering and project management best practices to deliver projects to its customers.
