TEOWIN ERP

THE CONTROL OF THE FACTORY IS IN YOUR HANDS

Design, management, control and planning in a single software package.

teowin® ERP

Over 30 years of experience in the furniture industry.

ERP SOFTWARE, A SPECIALISED SOLUTION FOR A COMPREHENSIVE MANAGEMENT OF FURNITURE FACTORIES

INTEGRATE FURNITURE ENGINEERING

- Define your furniture with 100% accuracy, integrating all variables (measurements, colors, models, cuts, handles, etc.).

- Work directly in 3D (no prior CAD knowledge required) and display your furniture items as dynamic parametric objects.

- Create a new product along with all its technical and commercial documentation.

CALCULATE AND PLAN
ALL FACTORY WORK

- Manage new orders entries, manually or automatically.

- Automatically calculate material supply and schedule all tasks for production.

- Generate the reports needed to keep the plant running smoothly and connect it to machines to automate manufacturing processes.

CONTROL ALL RESOURCES OF THE FACTORY

- Control orders and resources from the global planning interface.

- Mark parts in the workshop and evaluate the effectiveness of the system in place.

- Identify at any time the part status within the production line and manage the rejects in the workshop.

MANAGE **ALL THE STOCK**

- Control, list and classify all materials: raw materials, finished and semi-finished products.

- Access information through picking list and packing list reports.

- Control trucks loading during the final product release with TeoPack&Go.
