APA 2 - the original

High-Performance Bandsaw Guide

## APA 2 - the original

The high-performance bandsaw guide APA 2 is the core of any bandsaw machine.

- hardened back and side rollers secure the blade and keep it in the correct position even under extreme conditions
- user-friendly fine-adjustment and permanent lubrication which comes as standard guarantee minimum maintenance
- thanks to its sturdy construction and the precision of the upper and lower guide, the band saw blade moves smoothly and is therefore almost wear-free
- this extends the lifetime of the band saw blade considerably

Optional:

- The APA 2 bandsaw blade guide is available with a ball bearing back roller upon request
- e.g. for processing non-ferrous metals

	Size	Position	Wheel Ø mm	Blade width mm	Item number
APA 2	1	upper	300 - 500	3 - 25	1248
APA 2	1	lower	300 - 500	3 - 25	1250
APA 2	2	upper	600 - 900	5 - 40	1254
APA 2	2	lower	600 - 900	5 - 40	1256
APA 2	2*	upper	600 - 900	5 - 40	1276*
APA 2	2*	lower	600 - 900	5 - 40	1277*

\* with ball bearing back roller
