is more

SINCE 1952 WE HAVE BEEN FIRM LEADERS IN THE MANUFACTURE OF MACHINES, SYSTEMS AND SERVICES FOR THE WOODWORKING INDUSTRY

Since 1952, a leading producer of machinery and systems, as well as service provider, for the woodworking industry. Our 3 major production centres in Italy boast a record annual production output of over 20,000 machines, supported by the largest distribution network in the industry and an excellent after-sales service.

Its state-of-the-art woodworking technologies and applications are able to respond to all market needs, both within an industrial context and in that of the craftsman, both for machining panels and processing of solid wood.

As from today, SCM is the reference brand in the field of woodworking machinery and that of the specific technologies developed by the historical brands, who now give their respective names to each of the machines.

1952

The history of SCM dates back to 1952 when **Nicola Gemmani** and **Lanfranco Aureli** produced their first woodworking machine, designed by **Giuseppe Gemmani**, Nicola's son.

1976

SCM develops the first **solid wood machining centres and door and window systems** and quickly takes on a leading role.

FOR OVER 65 YEARS, SCM HAS BEEN AT THE FOREFRONT OF THE INDUSTRIAL REVOLUTION IN THE WOODWORKING SECTOR

1985

SCM takes over **Morbidelli**, a move that is followed by the takeover of other prestigious companies such as **Stefani, Gabbiani, Dmc, Superfici** and others, until its **panel machining** processes are complete and it again takes on a leading role.

1992

SCM then takes over **Routech** and in the years that follow, it develops a series of technologies for **machining wooden elements for the construction industry**.

2009

The company launches its **industrial consolidation and development plan**. SCM reorganises, implementing Lean Manufacturing strategies in its entire production process to obtain the highest levels of quality and efficiency.

2017

SCM becomes the Group's reference brand for the **woodworking sector**.

ALONGSIDE ALL SECTORS IN THE WOODWORKING INDUSTRY

SCM offers a wide range of machines to satisfy all the stages in secondary woodworking processing.

This ranges from domestic, office and contract furniture to the world of structural architecture, such as beams and partitions as well as finishings, such as joinery, floors and stairs and onto specialised sectors, like chairs and eyewear. All over the world where there is woodwork, there is SCM.

A VAST HERITAGE OF SKILLS IN A SINGLE BRAND

2017 saw the start of the company's rebranding, making SCM the world's leading name in the sector for secondary woodworking machinery and for those specific technologies that originated from the historical brands, who have now given their names to today's machines.

THE MOST ADVANCED SKILLS AND KNOW-HOW IN THE FIELDS OF MACHINERY AND INDUSTRIAL COMPONENTS

A technological world leader in processing a wide variety of materials: wood, plastic, glass, stone, metal and composites. The Group companies, operating throughout the world, are reliable partners of leading companies in various market sectors, including the furniture, construction, automotive, aerospace, ship-building and plastic processing industries. **SCM**

Group coordinates, supports and develops a system of industrial excellence in 3 large highly specialized production centres employing more than 4.000 workers and operating in all 5 continents.

INDUSTRIAL MACHINES

Stand alone machines, integrated systems and services dedicated to the machining process of a wide range of materials.

Woodworking technologies

Technologies for machining composites, aluminium, plastic, glass, stone and metal

INDUSTRIAL COMPONENTS

Technological components for machines and systems produced by the Group, third parties and the mechanics industry.

Electro-spindles and technological components

Electrical panels
