

SOLUTION-ORIENTED, PRACTICAL, FLEXIBLE.

Your partner for surface engineering

- > WORLDWIDE MORE THAN 2000 CUSTOMERS
- > OVER 90 EMPLOYEES
- > EXPERTISE FROM A SINGLE SOURCE
- > EXTENSIVE KNOW-HOW SINCE 1995
- > COMPREHENSIVE SERVICE

Craft enterprises, mid-sized companies or international corporations – they all have faith in our knowledge and experience. Together, we develop individually tailored solutions for your projects.

We advise companies continuously in the areas of environment, safety and management systems, offering them streamlined and pragmatic solutions.

Our participation in numerous national and international bodies ensures that we are always up to date with the latest technological advancements.

QUBUS

Networked action – operate globally

From our offices in Germany, the Netherlands, China and the United Arab Emirates, our experts travel the world and so they are always close by.

IFO AND QUBUS – TWO COMPANIES. ONE GOAL. WORLDWIDE.

Services around surface engineering and manufacturing

We look forward to your inquiries.

Institut für Oberflächentechnik GmbH

Planung und Beratung Oberflächentechnik GmbH

Improve your Quality

SERVICES FOR SURFACE ENGINEERING

As a joint network, we have established ourselves as a leading global service provider for surface engineering and metalworking.

In our laboratories in Germany, the Netherlands, the United Arab Emirates and China, all industries can access qualified staff, modern facilities, and equipment for surface engineering issues and testing.

Our in-depth understanding of production facilities and process engineering is an important pillar of our work. This background knowledge fuels our practical expertise and customer interactions. Accredited testing methods guarantee objective results.

IFO

IFO – Institut für Oberflächentechnik GmbH

Independent accredited institute for tests and examinations of coatings and coating systems

QUBUS – Planung und Beratung Oberflächentechnik GmbH

Consulting on all production issues is the responsibility of QUBUS. Our experts make your day-to-day work easier. Because as experienced practitioners we understand the requirements and procedures of production and we speak your language.

LABORATORY SERVICES

Accredited according to ISO 17025 – chemical and physical analytical methods for the characterisation of materials and layer systems

CASES OF DAMAGE AND AUTHORIZED EXPERTS

Body of experts with consulting and furnishing private opinions and survey reports respectively expertises with sworn and accredited authorized experts

QUALITY TESTING

Internationally operating testing institute with on-site process and production inspection

COATING INSPECTION

NACE and FROSIO inspections worldwide

BUILDING INSPECTION AUTHORITY

Inspection body for corrosion-resistant building products recognised by DiBt

CONTRACT RESEARCH

Application-oriented development work for industry, associations, small and medium-sized enterprises

CERTIFICATIONS FOR METAL CONSTRUCTION COMPANIES

Certification body accredited according to ISO 17065 for the certification of production controls of metalworking companies according to EN 1090

MANAGEMENT SYSTEMS

Quality-, environmental-, energy management systems

EXPERT OPINIONS

Neutral technical and economic evaluations for plants and facilities

PLANT AND FACTORY PLANNING

Electroplating, wastewater treatment and painting plants

ENVIRONMENTAL PROTECTION AND OCCUPATIONAL SAFETY

Approval procedures, external authorised representatives, CE-marking

FIRE PROTECTION

Fire warden training, fire safety inspection reports and concepts

WORKSHOPS AND TRAINING COURSES

Workshops and in-house training courses for surface engineering, testing methods, environmental protection and occupational health and safety

*The accreditation applies only for the accreditation scope which is shown in the attachment of certificate D-ZE-11086-01-00.
